REMARKS

Claims 35-51 are pending in this application. In the Notice of Allowance dated January 4, 2005, the U.S. Patent and Trademark Office allowed claims 35-51, some of which had been amended and some of which had been added in a July 9, 2004 Response to Office Action. On April 1, 2005, with a Certificate of Mailing, Applicant paid the issue fee for this application.

It has just come to Applicant's attention, however, that claim 50 contains an error, namely that the element "a plurality of multi-colored light filters comprising a plurality of differently-colored elements being associated with each measure of liquid" is missing from claim 50. This element was inadvertently left out of this claim when it was introduced in the July 9, 2004 Response to Office Action. All of the other claims 35-49 and 51 contain this limitation, and the end of claim 50 even makes reference to this limitation ("said multi-colored light filters", last line) but without antecedent basis.

Accordingly, omission of this element from claim 50 is clearly an error by Applicant, and Applicant respectfully requests that this amendment be entered.

Conclusion

Reconsideration of the present application, as amended, is requested. A favorable action on the merits is earnestly solicited.

Respectfully submitted,
